THE SHOW

“FOX LIMA” and various members of the mysterious Enigma project will perform, along with unique different singers and fantastic Dancers, live in a spectacular show.

Three Grammy nominations, 70 million records sold, over 100 gold and platinum album sales certifications and this is just a visible part of the Enigma project mystery.

Founded in 1980's by a German producer, Michael Cretu, Enigma project ignited the hearts of millions of listeners with unique and iconic sounds that are incomparable to anything else. A synthesis of music styles, Gregorian chanting, ethnic psalms, church bells, organ and other instruments creates very special, atmospheric and sometimes even psychedelic sounds. Overwhelming record sales and yet hidden faces made Enigma one of the most popular and mystifying musical projects of the last decades.

The success of Enigma was an inspiration to many artists and producers, including Gregorian project that performs modern pop and rock songs with a Gregorian chant-inspired style. Despite these stunning numbers, the project has never toured or appeared on stage with live shows.

Enigma was always a studio project and never planned live performances.

In 2018, the company DC Music founded the project "Original Enigma Voices", registered the brand as property and began to create a show together with some of the original singers who gave their voices in the Enigma studio and thus contributed a large part to Enigma's success were involved.

From 2018 to 2024, the shows were accompanied by a live band and a string orchestra.

In 2024, the company DC Music, as the owner of the project, decided to change many things. As Jens Gad, world wide and previous co-producer of Enigma, explains, “We’ve returned to the essence of Enigma’s music—its mystical and atmospheric nature—after realizing that previous live productions didn’t fully capture the soul of these compositions. By stripping back the noise and returning to the roots of what made Enigma so extraordinary, we’ve opened a new chapter.”
